ATC Check Report

Adobe form ZF_LOAN_RECEIPT - book loan receipt

Item	Value
Document	ATC-20261105-library-books-loans
App	library-books-loans
Date	05.11.2026
Author	RAP Studio · AI agent
Request	Build an Adobe form (XDP layout) ZF_LOAN_RECEIPT for a book loan with book and borrower data, loan dates, days overdue and a late fee computed by a calculate script, a Page n of m footer and a fillable Remarks field, using a form data provider, plus a console class that reads a loan, renders the PDF with cl_fp_ads_util=>render_pdf and puts it into the print queue.
Status	Delivered
