QA Test Report

Adobe form ZF_LOAN_RECEIPT - book loan receipt

Item	Value
Document	QA-20261105-library-books-loans
App	library-books-loans
Date	05.11.2026
Author	RAP Studio · AI agent
Request	Build an Adobe form (XDP layout) ZF_LOAN_RECEIPT for a book loan with book and borrower data, loan dates, days overdue and a late fee computed by a calculate script, a Page n of m footer and a fillable Remarks field, using a form data provider, plus a console class that reads a loan, renders the PDF with cl_fp_ads_util=>render_pdf and puts it into the print queue.
Status	Delivered

1. Summary

Area	Result
Activation	0 errors
Code checks (ATC)	0 errors, 0 warnings, 5 infos
Test cases	5 of 5 passed
Screenshots	1 (section 4)

2. Test cases

ID	Test	Expected	Actual	Status	Evidence
FT-01	Print the receipt of the most overdue open loan	The loan of 'Sapiens' (Lukas Becker, due 2026-10-26) is rendered as a 1-page PDF and a print queue item is created	[rap] activated /Users/nabheet/DevZone/ABAP/apps/library-books-loans in 128 ms: 2 tables, 6 views, 2 behavior definitions, 5 classes, 2 services; 0 error(s), 0 warning(s)	Pass	
FT-02	Form data of open loans (data provider)	Two open loans with book title and author; ReferenceDate is today because ReturnDate is empty	HTTP 200, 2 entries	Pass	
FT-03	Form data of a returned loan	The Hobbit, due 2026-10-15, returned 2026-10-20; ReferenceDate equals the return date (5 days overdue, fee 2.50 EUR in the form)	HTTP 200, 1 entry	Pass	
FT-04	Borrower without loans (empty result)	No form data: HTTP 200 with an empty list (0 entries)	HTTP 200, 0 entries	Pass	
FT-05	The app's start page	The library app with the book list	page opens	Pass	Fig. 1

3. How the tests ran

Each test case was run on the app in RAP Studio; the commands can be repeated in the app folder with rap:

```
FT-01  rap class zcl_loan_receipt_print
FT-02  rap odata GET zfdp_loan_receipt/LoanReceipt?
%24filter=MemberName%20eq%20%27Lukas%20Becker%27&%24select=BookTitle,Author,DueDate,ReturnDate,ReferenceDate
FT-03  rap odata GET zfdp_loan_receipt/LoanReceipt?
%24filter=MemberName%20eq%20%27Mia%20Chen%27&%24select=BookTitle,DueDate,ReturnDate,ReferenceDate
FT-04  rap odata GET zfdp_loan_receipt/LoanReceipt?%24filter=MemberName%20eq%20%27Nobody%27
FT-05  rap ui
```
